

EJECTOR/PUSH-OUT BUCKET

RECOMMENDED APPLICATIONS:

The Werk-Brau Ejector/Push-Out bucket is ideal for high dump heights while reducing feeding overages. Specifically designed to increase dump height by 24"+. Perfect for dairy and feed applications.

QUALITY CONSTRUCTION:

Rubber Skirting keeps the bucket clean after every dump.

ADDITIONAL FEATURES:

Design eliminates the need for rapidly shaking the bucket causing stress on the loader arms and bucket. The highly controllable dump helps eliminate waste and prevents "dump" cycle time. Rubber skirting keeps the bucket clean after every dump.
