# PowerGrip

## Bucket

Specifically designed to enhance a machine's grading, trenching, or clamshell capabilities with precise control. Capable of 120 degrees of jaw movement.

## Features

Enclosed rotary actuator hinge in cross-tube

---

No obstruction in jaw or bucket shell

---

No exposed cylinders or other external moving parts

---

120° of jaw movement

---

Consistent clamping force through jaw's full range of motion

---

Equal force exerted at both sides prevents jaw twisting

---

Standard OEM lugging

---

Quick-coupler compatible

---

Uses existing auxiliary hydraulic circuit

---

Clamping force approximately 3x of standard thumb

---
