

Hydraulic Front Coupler

Recommended Applications:

Designed to quickly and easily change from one attachment to another without operator leaving the cab. Enables the operator to utilize various attachments on a single job. Werk-Brau offers four different styles of couplers to meet any preference or need.

Quality Construction:

High strength steel is used throughout the unit. Connecting pins are hard chrome for wear and corrosion resistance.

Standard Sizes Available:

1.0 yd. - 6.0 yd. Loaders

Additional Features:

A removable guard protects dual-acting hydraulic cylinder and fittings. Open design provides maximum visibility while mounting to various attachments. Coupler includes installation and operating manual with a parts list.
