
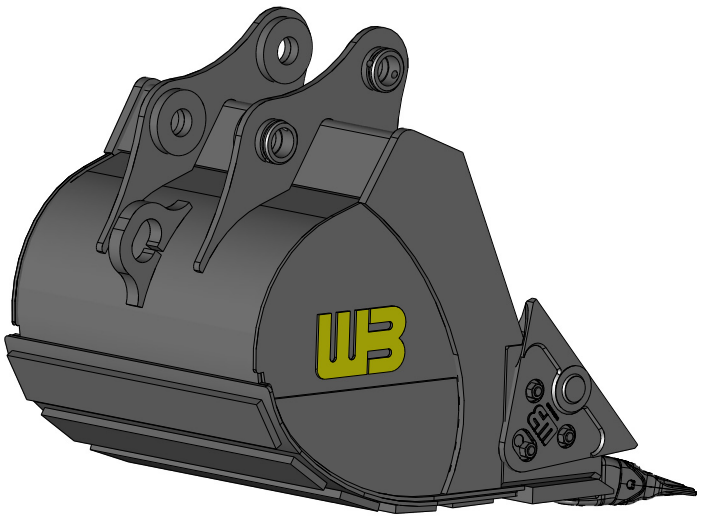
WERK-BRAU

Werk-Brau manufactures a complete line of O.E.M. and replacement attachments for excavators, mini excavators, backhoes, mini and full size loaders and crawler loaders. All over the world Werk-Brau attachments can be found hard at work in the toughest of conditions.

Excavator
Bucket



Werk-Brau's severe duty buckets are specifically designed with an aggressive dig angle to effectively excavate in the toughest conditions. Ideal applications for this bucket include but are not limited to demolition work, shot rock, high abrasive applications, and moderate prying. When paired with a thumb, this bucket can also be used for material handling.

Features

Werk-Brau's unique gusseted channel system yields the strongest and most reliable bucket manufactured in the industry

High-quality T-1 steel is utilized in all critical or high-wear components to ensure that bucket has a long operational life; increased steel thickness for more durability

Heavy-duty cast material is used in the bucket's cutter bit.

The cutting edge is backed by a heavily-reinforced plate with heavy-duty horizontal wear straps protecting the rest of the bucket bottom.

Each bucket is engineered with tapered side plates to reduce wear on the bucket's sides, and to allow for easier dumping.

Increased tooth sizes in most cases

Tip Radius Up to or Within O.E.M. specifications.
