

SKELETON ROCK BUCKET

RECOMMENDED APPLICATIONS:

Excellent for quarry work, design allows for sifting of loose debris to fall through to keep material load to minimum.

QUALITY CONSTRUCTION:

High strength steel construction for durability and long wear.

STANDARD SIZES:

2.75 cu. yd. to 7.0 cu. yd. of various widths available. Special designs or desired tine spacing is available upon request.

ADDITIONAL FEATURES:

Available with Werk-Brau front coupler or pin-up connection.
